

Come to Red Lake and discover one of Northwestern Ontario's most vibrant and prolific artistic communities. Our latest project is the *Banner Art Gallery*, a dazzling display of 50 individually designed and hand-painted banners. The images showcase many themes, including our rich Aboriginal culture, our magnificent wildlife, and our healthy lifestyle. Artists of various ages, cultural backgrounds and experience in the arts have participated in this project. The youngest artists are the Senior Kindergarten class from the *Golden Learning Centre*, who created a class banner. At 81, Lois Beck is our senior participant. The banner artists are comprised of professional artists who sell their work internationally, talented youth planning to pursue a career in the arts, and individuals who love to paint and wanted to contribute to this unique community project. The banners are bright and bold, and speak of a lifestyle and heritage we appreciate to its fullest and are happy to share with our visitors.
